Create better readers and writers with the
Membean Vocabulary Engine

Welcome to Membean

Membean is an online vocabulary learning system that helps students develop an excitement for words and an expertise for how to precisely use those words. Membean is fully automated and personalized with regards to the current vocabulary knowledge and learning pace of your child.

Students enjoy the fun, game-like environment that continually presents challenges in the form of microlearning nuggets. After an initial assessment of your child's range of vocabulary knowledge, Membean takes over by introducing words, asking many questions about them, and recording your child's progress on a student dashboard. Teachers also have access to a teacher dashboard to track your child's progress and make adjustments to your child's personalized program.

Visit http://membean.com/products/personal/plans to sign up for the free three-day plan so that you can learn words with your child and see for yourself how Membean helps develop word consciousness.

Engaging, Rigorous Instruction

- ✔ Personalized to the learning needs of your child
